

Modern Practice in Stress and Vibration Analysis

We are gearing up for MPSVA 2018, the main event of the Applied Mechanics Group next year. It will take place on 2nd - 4th July and is the latest in a long running conference series going back to 1992. It promises to be one of the best.

The venue is Clare College, Cambridge, a very ancient institution dating back to 1326 with lovely buildings and a fine scholarly atmosphere. It is located right in the heart of the city amongst the other ancient colleges.

We will use the old buildings for socialising, including the conference dinner. We will cross the river and walk through the Fellows' Garden to the modern buildings for the technical sessions.

Clare College viewed from across the River

The conference will cover all topics likely to interest members of the Applied Mechanics Group, and indeed all engineers and physicists interested in applied mechanics. Please consider attending yourself and/or sending your students. The deadline for abstracts is 15th January 2018. Go to <http://mpsva2018.iopconfs.org/Home> for further information.

International Conference on Advances in Experimental Mechanics

Applied Mechanics Group ran a theme on dynamic and vibrational loading at ICAEM 2018, held in the spectacular new Diamond building at Sheffield University.

This went pretty well, though with only four papers. We hope to expand on this in future years.

AMG Committee

Dr Jack Hale (Chairman)
Prof Carol Featherston (Hon Secretary)
Dr Anish Roy (Hon Treasurer)
Dr Cris Mares (Past Chairman)
Dr Giles Aldrich-Smith
Dr Ifigeneia Antoniadou
Dr John Bannister
Prof Alison McMillan
Dr Sophoclis Patsias
Prof Chris Smith
